Thanks, Ryan. I forwarded your email to our attorney, who told me she would look at it today. I will let you know when I hear back from her. I hope it's soon!

Have a nice weekend,
Christine

SubjectDraft Comment re: PCB Field Activity Report for Naval
StationTreasure Island

Christine,

As I mentioned, I am reviewing the Draft Field Activity Report PCB Remediation for NSTI and wanted to include a notification bullet that reminds the Navy that we (DTSC and USEPA) should be at the table when transfer discussions get underway. Please note that nothing in this report or in any communication to date has indicated that the Navy was NOT intending to do this, but I just wanted to send them a friendly reminder at this time.

Thanks!

Ryan

=====DRAFT COMMENT FOR DISCUSSION PURPOSES
ONLY=====

The Navy will provide notice to United States Environmental Protection Agency (USEPA) and the State of California Department of Toxic Substances Control (State) at least six (6) months prior to any transfer or sale of base or Operable Unit(s) at issue so that USEPA and the State can be involved in discussions to ensure that appropriate provisions are included in the transfer terms or conveyance documents to maintain effective institutional controls (ICs). If it is not possible for the facility to notify USEPA and the State at least six months prior to any transfer or sale, then the facility will notify USEPA and the State as soon as possible but no later than 60 days prior to the transfer or sale of any property subject to ICs. In addition to the land transfer notice and discussion provisions above, the Navy further

agrees to provide USEPA and the State with similar notice, within the same time frames, as to federal-to-federal transfer of property. The Navy shall provide a copy of the executed deed or transfer documents to USEPA and the State.
